

SAVARD Speakers RAP Series 6.5"v2 S4 Component Set

WE SHIP DAILY

The RAP 6.5" v2 Component Set by SAVARD has recently been overhauled with many upgrades desired by audiophiles. The SAVARD New RAP Component Sets features higher efficiency technology allowing for crystal clear listening. Suitable for stock power applications but durable enough to handle aftermarket amplifiers. Newly designed custom speaker adapters offer a recessed/flush mounting, fitted interlocking metal mesh grill. Resulting in a clean, seem-less install for that professional "no show/hidden" look.

Component Set Includes:

- (2) 6.5"inch Full Range Speakers
- (2) 25mm Silk Dome Neodymium Tweeters
- (2) Passive High & Low Pass CrossOvers
 - Tweeter: 4400hz 12db/octave High Pass
 - RAP 6.5: 1300hz 6db/octave Low Pass
- (2) 6.5" SAVARD Speaker Grills (Upgraded and Seamless Redesign)

Top 5 Reasons to Choose SAVARD:

- 100% FREE Domestic Tech Support
- Durable Products
- High Output Technology
- FREE Enclosure Design Support
- The Only Authorized Online SAVARD Products Dealer

RAP 6.5" Specifications:

- Nomial Diameter: 6.5"
- Power Handling:
 - RMS: 5 - 60 watts
 - Recommended Power: See Chart Below
- Impedance: Single 4 Ohm
- Frequency Response: 45 Hz - 20 KHz
- Sensitivity: 89.21 dB - 1watt/1meter
- Sensitivity: 92.53 db SPL 2.83 vRMS
- Voice Coil Diameter: 1"

Mounting Information:

Overall Diameter: 6.5"
Baffle Cutout Diameter: 5.5"
Mounting Depth: 2.5"
Bolt Pattern Diameter: 6" i.d - 6.3125" o.d.
of Mounting Holes: 16

General Features

Crossover (Redesigned and Durable):

- Adjustable Crossover (Allowing you to increase or decrease the output of tweeter for immediate gain matching)
- "Auto Shut Off"
 - The Crossover will automatically disconnect and reconnect the tweeter if power surges to protect tweeter when overpowered

Tweeter:

- 25mm Silk Dome Neodymium Slim Profile Tweeter
- Smooth Response w/Wider Bandwidth for Seamless Transition

Woofer:

- 1" Copper Voice Coil around Fast Heat Dissipating Aluminum Former
- High Temp Voice Coil Adhesive
- Tall Roll Rubbatex Surround
- Progressive Conex Spider with Reinforced Layer Tinsel Lead
- Stamped Aluminum Frame with 360 Degree Heat Dispersion
- Y35 Grade Ferrite Magnet Assembly
- Integrated PCB/Male Tab Terminals

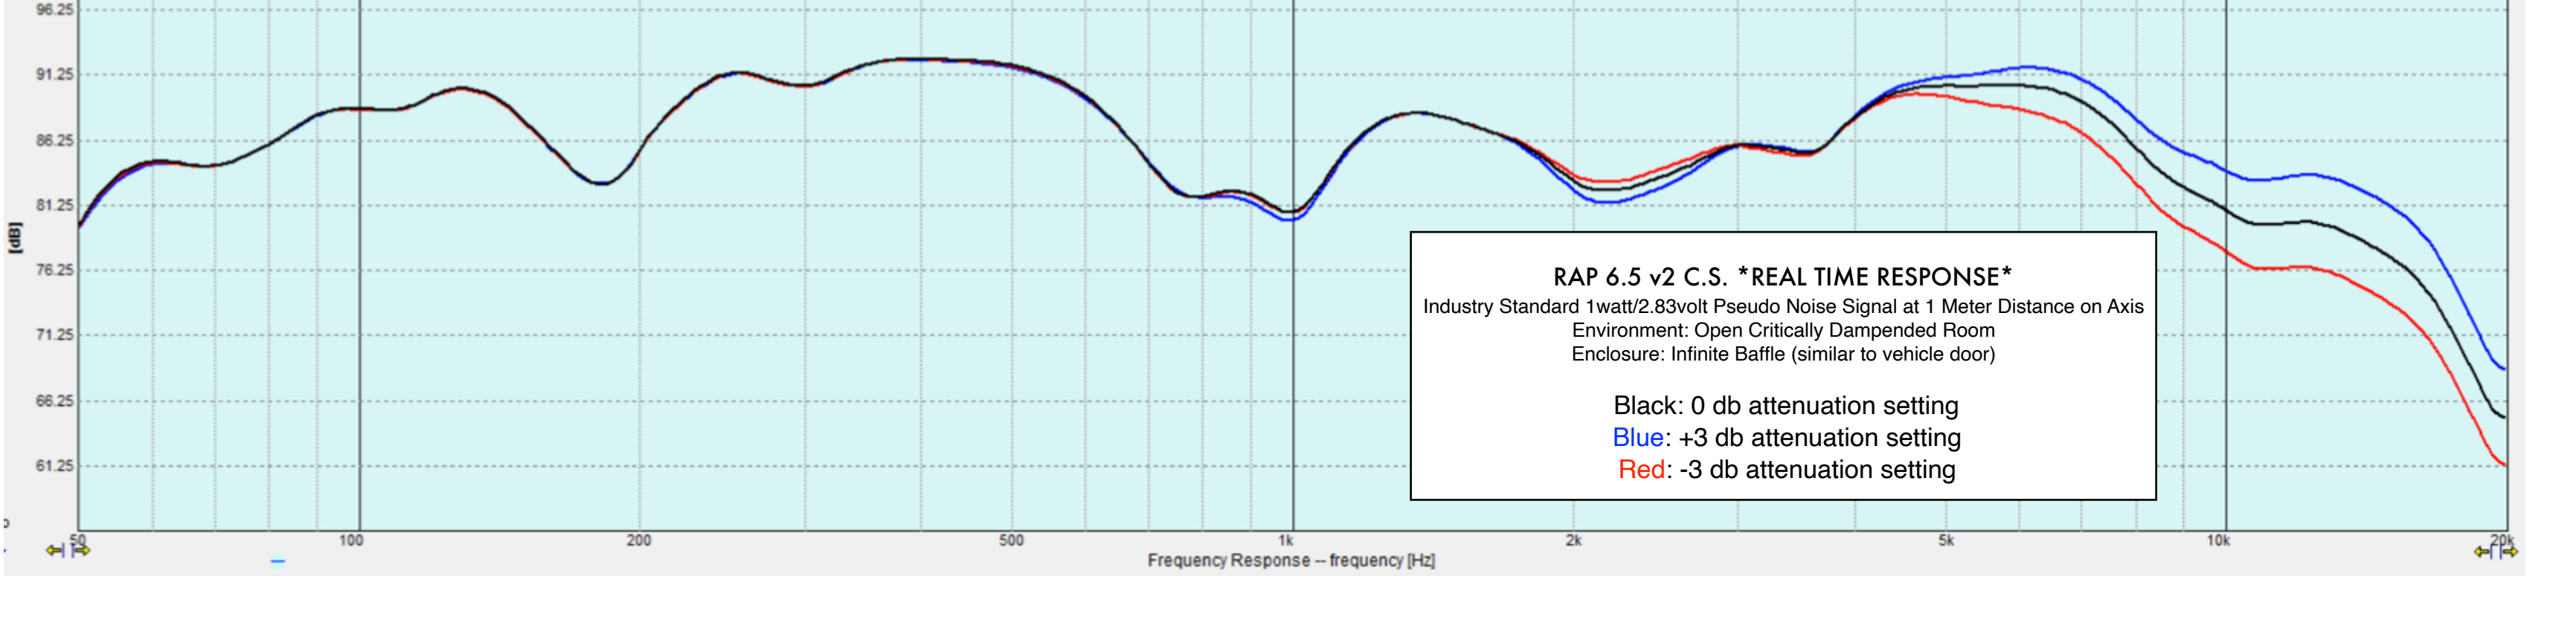

RAP 6.5" Component Set (2way w/ crossover) Power Rating in RMS Per Channel						
5w	25w	60w	125w	200w	300w	400w +
		Optimum Performance & Safety (crossover 85hz HP)	crossover 120hz HP	Operate with Caution, set Amp High Pass Crossover to 220hz	Operate with Caution Void Warranty (Set Amp High Pass Crossover 300hz +)	

SAVARD includes a custom-built crossover specifically designed to ensure the RAP 6.5" woofer and RAP Tweeter work in seamless conjunction with each other. The engineered crossover is adjustable allowing gain matching between the woofer and tweeter with the flip of a switch. This allows ability to set the Tweeter output to match listening preferences based on mounted location of woofers. The Tweeter is also protected by a thermal fuse which will shut off the Tweeter when power exceeds ratings. The fuse will immediately auto reset once power/heat reduces to a safe level. The RAP Crossover Network is encased within a durable polypropylene housing with removable lid for easy install. The mid-range speaker crossover includes overbuilt precision coils resulting in a 3db/octave attenuation (Low Pass), while the Tweeter crossover features commercial grade Coils and Capacitors resulting in a 6db/octave attenuation (High Pass).

The RAP v2 Components compare to many other brands at double the price! Our focus is to incorporate design and materials which promote performance and enhance listening experiences at an affordable cost. At SAVARD we remove the "spin" and keep design simple in return to offer superior products at a fraction of the costs.

The lightweight design of the RAP 6.5 allows for increased transient response resulting in quick, clear, and efficient sound. While maintaining efficiency and sound quality, while maintaining relatively flat line of output up through thr crystal-clear highs. The SAVARD Tweeter dominates output from 4000hz and up. Utilizing the increased diaphragm, Our Tweeter has the ability to reach lower and play more efficiently than other brands top sellers.

The RAP Series combination is a vital part to any sound system featuring 6.5" components. Guaranteed to increase output capabilities with any genre of music. We recommend an RMS power supply between 5w - 60w each channel. As always please ensure power stays clean to any component.

SUPPORT FROM SAVARD SPEAKER SYSTEMS

SAVARD offers person to person support with the purchase of this product. A true SAVARD representative will offer Product Support.

- Building your own custom box (Enclosure Design)
- Port design (Box Tuning)
- SAVARD will supply Blue Prints for standard enclosure designs!
- Speaker Placement
- Port Placement
- All general Questions

We are a SAVARD Certified Vendor All warranties and support are backed by SAVARD Speaker Systems LLC.

BEWARE of Other Vendor Claims

Inflated Peak Power ratings are often exhibited to increase the appeal of the products. SAVARD uses conservative real time ratings. When selecting an amplifier SAVARD recommends reviewing reputable brands vs bargain brands. Please review RMS rating before purchase. Be cautious of inadequate service and support from some non-authorized vendors. SAVARD will offer direct support for items sold by this Ebay vendor.

Shipping/Warranty/Return Policies & Procedures

Shipping:

- All US orders with a physical address will be shipped using FedEx Ground or FedEx Home Delivery
- Please allow two day handling time

All SAVARD Speakers are covered under a Limited Warranty for a period of (2) Two Year from date of sale. Proof of sale must be returned with defective parts and freight must be prepaid. Applicability of warranty coverage will be determined by SAVARD SPEAKER SYSTEMS.

All defective products will be covered under warranty except the following:

- Physical Damage
- Water Damage
- Abuse, Accident, Misuse or Faulty Installation (Repeated returns for the same damage may be considered abuse unless accompanied by a receipt from professional installer)

****Warranty is automatically void when purchased from anyone other than franchised SAVARD DEALERS, and/or SHIPPED BACK WITHOUT proper packing (i.e. styrofoam balls, packing peanuts, or any method not stabilizing/securing said product) to ensure the stability of product in question in transit back to SAVARD****

Warranty Repair or Replacement parts will be returned freight prepaid. Parts not covered under warranty will be repaired or replaced and returns C.O.D. for parts and freight costs.

Return Procedure

*** ALL Products Purchased from SAVARD SPEAKER SYSTEMS will have an individual RA form Included within Package, if you require a Return Authorization Form Please Message Us.

Please message Us at Any Point before/during/after return procedures for help

Write the RA number outside of the shipping box to where it is visible upon arrival. Any box without a visible RA number may result in refusal by our receiving department. Put the completed RA FORM inside the box with your item. Any returned item without the completed form will result in delay in processing your request. Please send the item back to us in a standard shipping box with insurance. We are not responsible for any damage or missing items during shipment of the package.

Disclaimer

There will no NO EXCEPTIONS. Ownership of packages is transferred over to Buyer once package is delivered to a FedEx Location. SAVARD is not responsible for mis-delivery errors via carrier or incorrect shipping information. Shipping is a service you purchase from FedEx along with your order from us, so any shipping issues must be handled between Buyer and FedEx.

Processing Time is 1 to 3 business days, for drop off to FedEx, regardless of shipping service for in stock items. We do not ship on Saturdays, Sundays or Holidays.

You are responsible to file a claim with FedEx. We are not responsible for lost packages during transit. We are not responsible for shipments sent to forwarding services or companies regardless of shipping service selected, if you place an order and your shipping address is a forwarding address you are responsible for contacting your forwarding company or place to locate your shipment.

We are also not responsible to weather related damage or delays. Once package leaves our hands it is completely out of our control.

In the case that your shipment is lost or damaged in transit; Please reach out and We will best assist with filing FedEx Claims. We will work with you to better ensure you have a pleasant experience purchasing from SAVARD.

Please make sure your address is correct before placing order, we will not be responsible for incorrect addresses. Packages are NOT insured. Once again we are not responsible for package once it transfers to FedEx, it is then their responsibility to deliver and handle concerns for shipping delays or lost packages. You will not be refunded for the purchase from us if FedEx loses it. KEEP AN EYE ON YOUR PACKAGE'S TRACKING PROGRESS.

Please make sure all addresses are correct, we will not refund for wrong address on your part..
